Short-Term Rehabilitation

Our *Home Again* rehabilitation program helps you return home following illness or injury by utilizing a full range of medical and rehabilitation services, including physical therapy, occupational therapy and speech language pathology. Our large rehab gym and therapy room apartment allow you to make use of real world environments during your rehabilitation process, and a multi-use, therapeutic courtyard is also available should you prefer to exercise outdoors. Our team works directly with you and your physician to make sure that all your therapy goals are met, so you can return home faster, stronger.

Home Again Amenities Include:

- Tastefully furnished private suites
- Chef-prepared meals
- Fine linens
- Cable television
- Telephone
- Concierge service
- Wireless Access
- Much more!

We also provide **Prehabilitation**, a pre-surgical exercise program designed to improve your strength and performance of every-day tasks, as well as reduce the amount of pain and recovery time following your surgery, allowing you to return to maximum independence as quickly as possible.

Home Again Personal Wellness Plans

We are proud to be an industry leader in reducing hospital readmissions. Once you're ready to return home, we'll send you back with a Personal Wellness Plan, designed to reduce your chances of being readmitted to the hospital. Personal Wellness Plans help you manage symptoms for many common diagnoses, such as Congestive Heart Failure, Pneumonia, and hip and knee replacement.

If there ever comes a time when you find that you may need additional care, let us know, and we can provide you with information regarding our sister campuses, who share our passion for quality of care and dedication to our residents.

Respite Care

Caregiving is a demanding task, and it's easy to overlook your own health and well-being while focusing on your loved one's needs. Our Respite Care services provide you with the opportunity to take some time for yourself, while allowing your loved one to experience our five-star amenities and expert care.

Outpatient Therapy

Whether you've had a knee, shoulder or back injury, or are recovering from surgery, a total joint replacement or stroke, our expert team therapists will work directly with both you and your doctor to identify the source of your pain, improve your symptoms, and put you on the road to recovery.
